Summary

Frontend Developer skilled in React.js, Next.js, and Tailwind CSS, with experience building scalable, high-performance, and accessible web applications. Strong foundation in object-oriented programming. Proficient in developing component-based front-end architectures, integrating RESTful APIs, and applying responsive UI/UX design practices. Practicing unit testing in React using Jest to ensure code reliability and maintainability. Comfortable with tools like Git, Firebase, Postman, and DevTools in collaborative Agile workflows.

Skills

Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Next.js, Jest (Basics)

Development Tools & Platforms: GIT, Figma, Postman, Firebase, VS Code, Chrome DevTools

Programming languages: Java, JavaScript

Database: MongoDB, SQL

Experience

Frontend Developer Intern, Digit Educator – Gurugram   Nov 2024 – April 2025

- Improved Dcoil's WordPress frontend, enhancing mobile responsiveness and reducing page load time.
- Designed and prototyped UI/UX solutions for Yuzzi Solutions, making user navigation more intuitive.

Frontend Developer Intern, IBM SkillsBuild / CSRBOX – Remote   June 2024 – July 20024

- Developed "EcoLife Hub," a fully responsive article website, ensuring seamless performance across devices.
- Refined front-end development and UI/UX skills, applying best practices for responsive design.

Projects

Mockify – AI Interview Preparation Platform   Live Link | Repo

- Developed a scalable full-stack interview platform using Next.js, Firebase, and Tailwind CSS.
- Integrated voice-based AI interviews with Vapi and Gemini APIs for dynamic, real-time feedback.
- Applied basic testing strategies to validate core functionality and improve reliability.

Task Manager – Productivity Web App   Live Link | Repo

- Built a task manager with React.js, Firebase Auth, and Firestore enabling secure CRUD operations.
- Designed a modular UI using Tailwind CSS and Framer Motion to improve engagement and usability.
- Enhanced code structure with reusable components and organized state management.

Buzz – Music Player Web App   Live Link | Repo

- Created a feature-rich music player using HTML, CSS, and JavaScript with dynamic UI updates.
- Leveraged DOM manipulation and event handling to manage playback, navigation, and interactivity.
- Designed a responsive layout with accessibility and performance optimization in mind.

Education

DPG Degree College, MCA   (Aug 2023 – June 2025)
Vaish College, BCA   (July 2019 – June 2022)
K.M. Public School, 12 (Non-Medical)   (April 2018 – April 2019)

Certifications

IBM SkillsBuild - Web Development Fundamentals (2024)

- Developed a responsive article website (Eco-life Hub) using HTML, CSS, and JavaScript.
- Strengthened front-end development and UI/UX skills.

Postman API Fundamentals (2024)

- Learned API testing, request handling, and automation using Postman.
- Worked on creating, testing, and documenting APIs for better integration.
